Longwood sets registration for nursery, campus school

The annual registration period for the Longwood College nursery school and the J.P. Wynne Campus School will run through Mar. 3, 1980.

To be eligible for nursery school for the 1980-81 year, children must be four years of age on or before December 31, 1980. To be eligible for kindergarten, children must be five years of age by December 31, 1980.

Parents may secure applications from the Campus School office Monday through Friday from 8 a.m. to 4 p.m. All applications are placed on a waiting list by grade level, and selection is based upon the admission policy and the number of vacancies.

Dr. Crayton Buck, director of the Campus School, stated that names of children on previous waiting lists are not held over each year. A new application must be filed each year during the registration period. Filing early applications for children not yet eligible to attend school is unnecessary, as early registration carries no priority ranking.

Students currently enrolled in the nursery school or the Campus School are not required to re-register.

Persons desiring additional information may contact the Wynne Campus School office, telephone 392-9241.

Career Fair for high school sophomores planned

The Seventh Annual Career Fair for area high school sophomores will take place at Central Virginia Community College on March 24 and 25, 1980. Approximately 3,200 youngsters will enjoy an opportunity to explore their own choices of 3 careers from among 22 separate job clusters.

The Chairman of the Career Fair Committee, Dr. Robert Basbare has been meeting with representatives from the Personnel Association of Central Virginia, Lynchburg Personnel, and Guidance Association, Central Virginia Community College and school counselors from area public and private schools to plan for this important event. The Fair will acquaint area students with career opportunities and assist students with educational and occupational planning early enough in their high school years so that wise course selections may be made for the years ahead. This plan is in accordance with the State of Virginia Department of Education Standards of Quality objective which mandates that all graduating seniors be prepared either with job entry skills or for further studies in colleges or technical schools.

Financial sponsorship for this year's Fair is provided by Appalachian Power Company, Babcock and Wilcox Company, and Craddock and Terry Shoe Corporation.

On February 29 an orientation luncheon will be held for approximately 75 school counselors and program presenters. Prior to the Fair all area high school sophomores will participate in an orientation session with their counselors, during which time the students will select the job areas they wish to explore. On the day of the Fair, students will be bussed from their schools to CVCC for three 25-minute sessions. Presenters of those sessions will be professionals and workers from this area who will discuss with participating students all aspects of their work, including preparation, job opportunities, salary, working conditions and advancement.

Brochures will be prepared and distributed shortly.

SIX WAYS TO HELP KEEP YOUR PHONE BILL FROM LEAVING YOU SPEECHLESS.

How much your phone costs depends partly on how you use it.

So here are six easy ways you can talk up some real savings.

1. Dial it yourself and save. Direct dialed calls cost less than going through the operator.*
2. Call during off-peak calling times. Long distance rates are lower after 5 p.m. weekdays, all day Saturday and Sunday until 5 p.m.
3. Keep your calls brief. Having a clock within easy view of your phone helps.
4. Don't pay for mistakes. If you reach a wrong number, we don't want you to pay for it. Let the operator know right away, and you won't be charged.
5. Hang up on bad connections. And have the person who placed the call tell the operator. You'll be reconnected, and you won't have to pay for the interrupted time.
6. Use "800" numbers when possible. Remember that "800" numbers are toll free.

Follow these tips faithfully and your phone bill is less likely to leave you at a loss for words. Or money.
